

# Handshake

The #1 Way College Students Find Jobs

- Handshake is a jobs, internships, and events platform used by more than 1,400 colleges & universities across the U.S., including the three La Crosse higher education institutions.
- Employers create an account and choose the schools to connect with. Employers' job and internship posts only need to be entered once rather than having to be posted at each school.
- Employers can also create on-campus interview schedules, register for job/career fairs, and promote their events.
